

# ARTHUR SIMON

Art joined Research Testing Laboratories, Inc. In 1982 as President & CEO after a long, accomplished career in research within the Pharmaceutical Industry.

Research Testing Laboratories, Inc. (RTL) is an independent, privately-owned clinical research company which has been involved in clinical research since 1957. RTL enjoys an excellent reputation for high quality work in the ethical and OTC pharmaceutical arena. There are three on-site clinical facilities located within the Greater New York area (Great Neck NY, Huntington, NY and Hackensack, NJ) conducting Phase I through Phase IV clinical trials. These facilities also offer the pharmaceutical companies safety, efficacy and claim substantiation studies in support of FDA approval for Investigational New Drugs (IND) and New Drug Applications (NDA); as well as support studies for advertising claims.

RTL's CMS Group (Clinical Management Services) offers total project management for studies conducted at multi-center sites (private practice physicians, University Hospitals, nursing homes, adult residences and other research centers throughout the US). These trials are Phase I through Phase IV in nature and cover all therapeutic areas.

RTL's International Division, headquartered in Sevres, France, is a CRO unit which manages multi-center studies throughout Europe. RTL Ireland located in Cork, is a clinical study site.

The staff at RTL includes physicians, dentists, pharmacologists, Ph.D.s, PAs, RNs, RDs, CRAS, medical technologists, lab technicians and administrative support personnel. Also maintained is a team of physician consultants from various disciplines with whom we regularly work, all board certified and/or qualified. RTL's major clients are the OTC pharmaceutical companies which are members of the Non-Prescription Drug Manufacturers Association (NDMA) re: Bristol-Myers Squibb Company; Bayer Corporation; Ciba-Geigy Corporation; Johnson & Johnson Consumer Products; McNeil Consumer Products Company; Pfizer, Inc.; Procter & Gamble Company; Searle; and Warner-Lambert Company. RTL also works with major cosmetics companies.

Art received his Bachelor of Science Degree in Biology from Philadelphia College of Pharmacology & Science, a Masters Degree in Biology from Fairleigh Dickinson University and a Ph.D. in Pharmacology for the University of Cincinnati. Prior to joining RTL he served as Director of Cardiovascular Clinical Research at Bristol Myers Co. Art enjoys photography, biking and fly fishing. He is a member of the following associations: Dermal Clinical Evaluation Society; Drug Information Association; Regulatory Affairs Professionals Society; Associates of Clinical Pharmacology; International Association for Dental Research; and the American Association for Dental Research.
