Meet the Mayor Rizhao, China

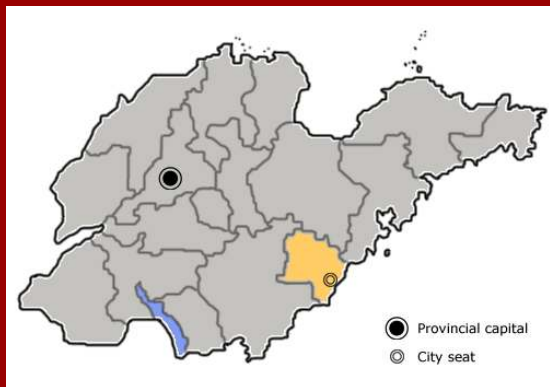

Come for brunch with the members and government of the most beautiful ocean front city in China, Rizhao. The word means, "The first sunshine" as the city is the closest to the USA and gets China's first rays of sun. It's a major port city with a diverse and growing industrial base.

For the past few years, the founder of www.ceoclubs.org, Joe Mancuso has been the economic advisor for this Mayor. The CEO CLUBS has several large real estate projects under construction.

During the past Christmas season, the CEO CLUBS visited the famous ginkgo tree in the adjacent mountains known as "eight arms and seven hands". Its an unbelievable 3500 years old and it measure eight arms around followed by seven hands.

Rizhao is located at the southern end of Shandong Peninsula along the coast of the Yellow Sea and faces Korea and Japan across the sea. It has Donggang District, Lanshan District, Ju County, Wulian County, Rizhao Economic & Technological Development Zone, and Shanhaitian Tourism & Vacation Zone under its jurisdiction. The city has a total area of 5310 square kilometers, a coastline of 100 kilometers and a population of 3 million.
