to Launch South African
CEO CLUB chapter...

two nights on game reserve **AFRICAN SAFARI**

Come experience what we have said for 35 years, "CEO's making money and having fun, while we are learning."

This may well be our most popular program ever as it's unique and it's our first chapter in AFRICA. Just six days and five nights as we are always on the move, meeting new friends, making money and having fun. CEO CLUBS have taken about 1,000 CEOs on similar trips in the past dozen years. While most have been to China, we have been to another dozen countries, but never to AFRICA.

"Making money and having fun while we are learning."

A million to one

It all started on a Monday while CEO CLUB founder, Joe Mancuso, was watching a TV show from his Wall Street loft showing Michelle Obama's arrival in South Africa. As Joe tells it, "I was sipping red wine and planning to leave for China in six days to meet the Chinese members. I took a phone call from the CEO of www.africanaccessholdings.com, Shaun Battlemann. This company employs about 800 and Shaun wanted to bring the CEO CLUBS to South Africa. Shaun had recently been voted the countries entrepreneur of the year."

He explained that there were 600 of South Africa's leading CEOs assembling for this year's entrepreneur of the year awards ceremony in Johannesburg on Thursday night. He asked me to come to announce a new CEO CLUB chapter and asked me the odds on my being in South Africa in just three days?

I told him I had never been there and that China was in the other direction and my chances were one-in-a-million on being there.

I could feel his face light up on the phone as he said, **"Great, I love those odds"**.

Two Days in the African Bush

My speech knocked their-socks-off (I hadn't slept in two days) and Shaun said, "Stay awake a little longer as we are taking you for a surprise visit tomorrow to the MALAMALA game reserve".

Now all that becomes part of the colorful folklore called...

CEO CLUB stories.

Come and see the hospitality. Shaun wrote me and said,

"We are AFRICAN ACCESS and our actions and conduct are governed by what we have termed 'African Access'ism' - a unique, transparent, warm, charitable, hospitable and embracing culture based on UBUNTU!!!"

MALAMALA

MalaMala promises the finest game viewing on the African sub-continent and regularly provides the subject matter for a veritable collection of international and local wildlife documentaries (including National Geographic). Many of these documentaries have won international accolades amidst critical acclaim.

Several publications are available, showcasing the treasures that make the property one of the most sought-after on any traveller's itinerary.

No other destination can compete with the Lowveld's pristine wilderness locations, which are legally protected from human interference. The region, larger than many independent countries, is home to the largest concentrations of free roaming elephant, lion, rhino, leopard, buffalo, cheetah, and literally hundreds of other species of wild mammal.

Today this area is known to have the greatest diversification of animal species on the African continent. Over two hundred different species occur in abundance, whilst the ever changing bird life provides even the most experienced ornithologist with rare finds.

MalaMala is renowned internationally for the quality of its leopard viewing. 99% of guests spending 2 nights at MalaMala will experience more than one leopard sighting a day – many of which involve other predators and most certainly prey.

“Not even Tanzania’s famed Serengeti Game Reserve or the awesome Ngorongoro Crater fills your camera viewfinder faster with Africa’s legendary Big Five – at MalaMala, lion, leopard, buffalo, rhinoceros and elephant appear magically, as if on cue,” says acclaimed wildlife photo-journalist Geoff Dalglish in his Sunday Times review.
