Co-owner and President of Regal Research and Mfg. Co.

Gayle and husband, Mike Powell, became involved with Regal Research and Mfg. Co. in 1985. At that time Regal was a machine shop employing 10 people. Since that time Regal has grown into one of the areas leading contract manufacturers for medical, defense, semiconductor, and telecom OEM's.

Before 1985, Gayle was involved in outside sales for an electronic equipment rep organization. She also worked for ElectroSpace Systems, a defense subcontract manufacturer and Texas Instruments.

Michael D. Powell

Co-owner and Chief Operations Officer

Mike has been the technical backbone in the complete turnkey manufacturing abilities of Regal Research. He has assembled a top team of professionals that can handle even the most challenging projects.

Before 1985, Mike was in manufacturing at Rockwell International, Director of Manufacturing at ElectroSpace Systems, and an electrical design engineer at Collins Radio.

Mike earned his BS in Electrical Engineering from Oklahoma State University and his MBA at Southern Methodist University.
